ASSAYS FROM INDIAN PEAK

Shows Good Copper Values-Visits the Columbia Mine-A. P. Mayberry Talks of the Silver Shield.

The annual meeting of the shareholders of the Horn Silver Mining company met at noon today and elected the following directors: Allan C. Washington, William R. Britton, Juan M. Ceballos, Theodore B. Moore, Philo T. Farnsworth, John Sharp and James Sharp. The board afterwards elected the following officers, viz.: Allan C. Washington, president: Juan M. Ceballos, vice-president and Ambrose I. Harrison, secretary and treasurer. Of the 400,000 shares of stock in the company, 316,607 were represented at the

Manager Farnsworth said today that the mine has done better this year than it did last year. At present the management is doing considerable development work, mainly in the shape of drifts to explore the ore bodies on the lower levels. The 1000-foot level is the deepest level from which ore is being extracted. The values are said to be about the same there as on the upper

#### INDIAN PEAK ASSAYS. Show High Values in Copper with Silver and Gold.

Some of the samples brought up from Indian Peak by Messrs. Richter and Young have been assayed and show 12 ounces silver, .04 ounces gold and 16 per cent copper. The highest assay showed following values: 11.4 silver, \$2 in gold and 20,1 copper per ton. The com-pany is making preparations to start work at once.

#### VISIT BINGHAM CLAIMS.

Judge Bartch and Others Examined the Snyder Group Yesterday.

Judge Bartch, Steven Baldwin and W. H. Child were in Bingham yesterday looking over the Snyder group on which a tunnel is being run towards a vein which has disclosed ore in a 60-foot shaft higher up the hill than the tunnel. The outlook is very favorable for ore nd a deal for the property is likely to

The Red Wing Extension was also visited and conditions there are said to be most encouraging.

#### AT THE COLUMBIA. Proposed to Build a Concentrating

Plant in the Spring. Frank B. Cook returned from the Co-Frank B. Cook returned from the Columbia Copper mine at Bingham last evening after inspecting the operations of some leasers there. The Shawmut mill was also inspected by Mr. Cook. It is quite probable that a mill will be built at the Columbia in the spring. The mill will likely have a capacity of 150 tons per day as water for that amount is to be had at the mine. In addition to drifting some 600 feet on the vain of high grade ore, the company has vein of high grade ore, the company has prosseut as much as 96 feet on the side of this streak, and obtained values which run better than 2 per cent copper. With a proper concentrating plant the Columbia should have a supply of milling ore sufficient to last for an indefinite period.

#### SILVER SHIELD IMPROVING. A. P. Mayberry Says the Property Never Looked as Well Before.

Superintendent A. P. Mayberry of the United States property at Bingham was in town today and gives very en-couraging news of the Silver Shield in couraging news of the Silver Shield in that camp. Mr. Mayberry says there is more ore in sight now than at any time since it was acquired by the present company. The ore is also said to be improving right along. A shipment of 60 or 70 tons of crude ore is today at the mine which will be the best shipment ever made from the property. The ire has been followed quite a distance in the strike of the vein.

#### SEPTEMBER SHIPMENTS. Show a Material Decrease When Compared With Those of August.

Special Correspondence, Special Correspondence.

Eureka, Oct. 1.—During the month of September the mines of Tintic district marketed three hundred and seventy-eight carloads of ore, and the mills of the district sent out twenty-four carloads of concentrates.

The amount of ore for the past month falls over one hundred carloads short of the product for August. For the month of September the output from the Eureka end of the district was 221 cars

of September the district was 221 cars of ore, as against 307 the previous month. This amount was divided among the mines as follows:
